Odyssey of self-discovery

# VISION

To be a global leader in delivering pedagogy that inspires the thought process of a child to succeed in personal life, career commitments and societal duties.

# Our Core Values

Promote sustainable practices

Cultivate self-reliance

Create responsible global citizens

Embrace diverse perspectives

Promote inclusivity

Appreciate uniqueness in every child

Ensure joyful learning experiences

Apply concepts in practical scenarios

Promote native intelligence

# Our Motto

## Aathmavridhi

Inspired Learning leads to  
self development

# Our Curriculum

Our approach harmonises CBSE with progressive teaching practices

## Olo Kinder

Our Kindergarten pedagogy developed by our in-house experts incorporates ideologies of educators like Reggio, Montessori and Wolderoff. The focus is on learning by doing through music, art and games.

## Discovery Domain

Teaching patterns for Grades 1 to 5 optimize the exploratory nature of children in this age group. Students are encouraged to learn through diverse means and establish connections across subjects.

## Middle Marvels

Students make informed choices about their interest and start with foundation courses for competitive exams. Students are also exposed to real time projects where they get a chance to apply the concepts learnt.

## Pinnacle Prep

Our high school learning is centered around the concept of reiteration and application through classroom, lab and demonstration sessions. Students are encouraged and guided to identify learning paths for the after-school years.

## Graduating Grounds

Students are assisted in aspects of target-setting, study planning and executing study plans in a time-effective manner so that they are in charge of their own learning decisions. Students are also given guidance on career planning, counselling and exposure to other design based courses through our career prep program.

# Clubs

Students explore and engage in meaningful activities through our vibrant array of school clubs. Students and teachers collectively take up roles in organizing meets and events for the club. Alongside their mainstream subjects, clubs support them to spend time and energy in their specific interest. Students choose the clubs that they want to be part of, right from Kindergarten. You will not be surprised to see our second graders "road patrolling" and our kindergartners taking care of our kitchen garden.

# Prakalp

**Prakalp**, our annual event, brings together students to present projects and gather insights from industry experts. Vadiva, our design thinking program, promotes real-life skills, encouraging students to simulate roles for problem-solving, resulting in innovative capstone projects that reveal new capabilities and interests.

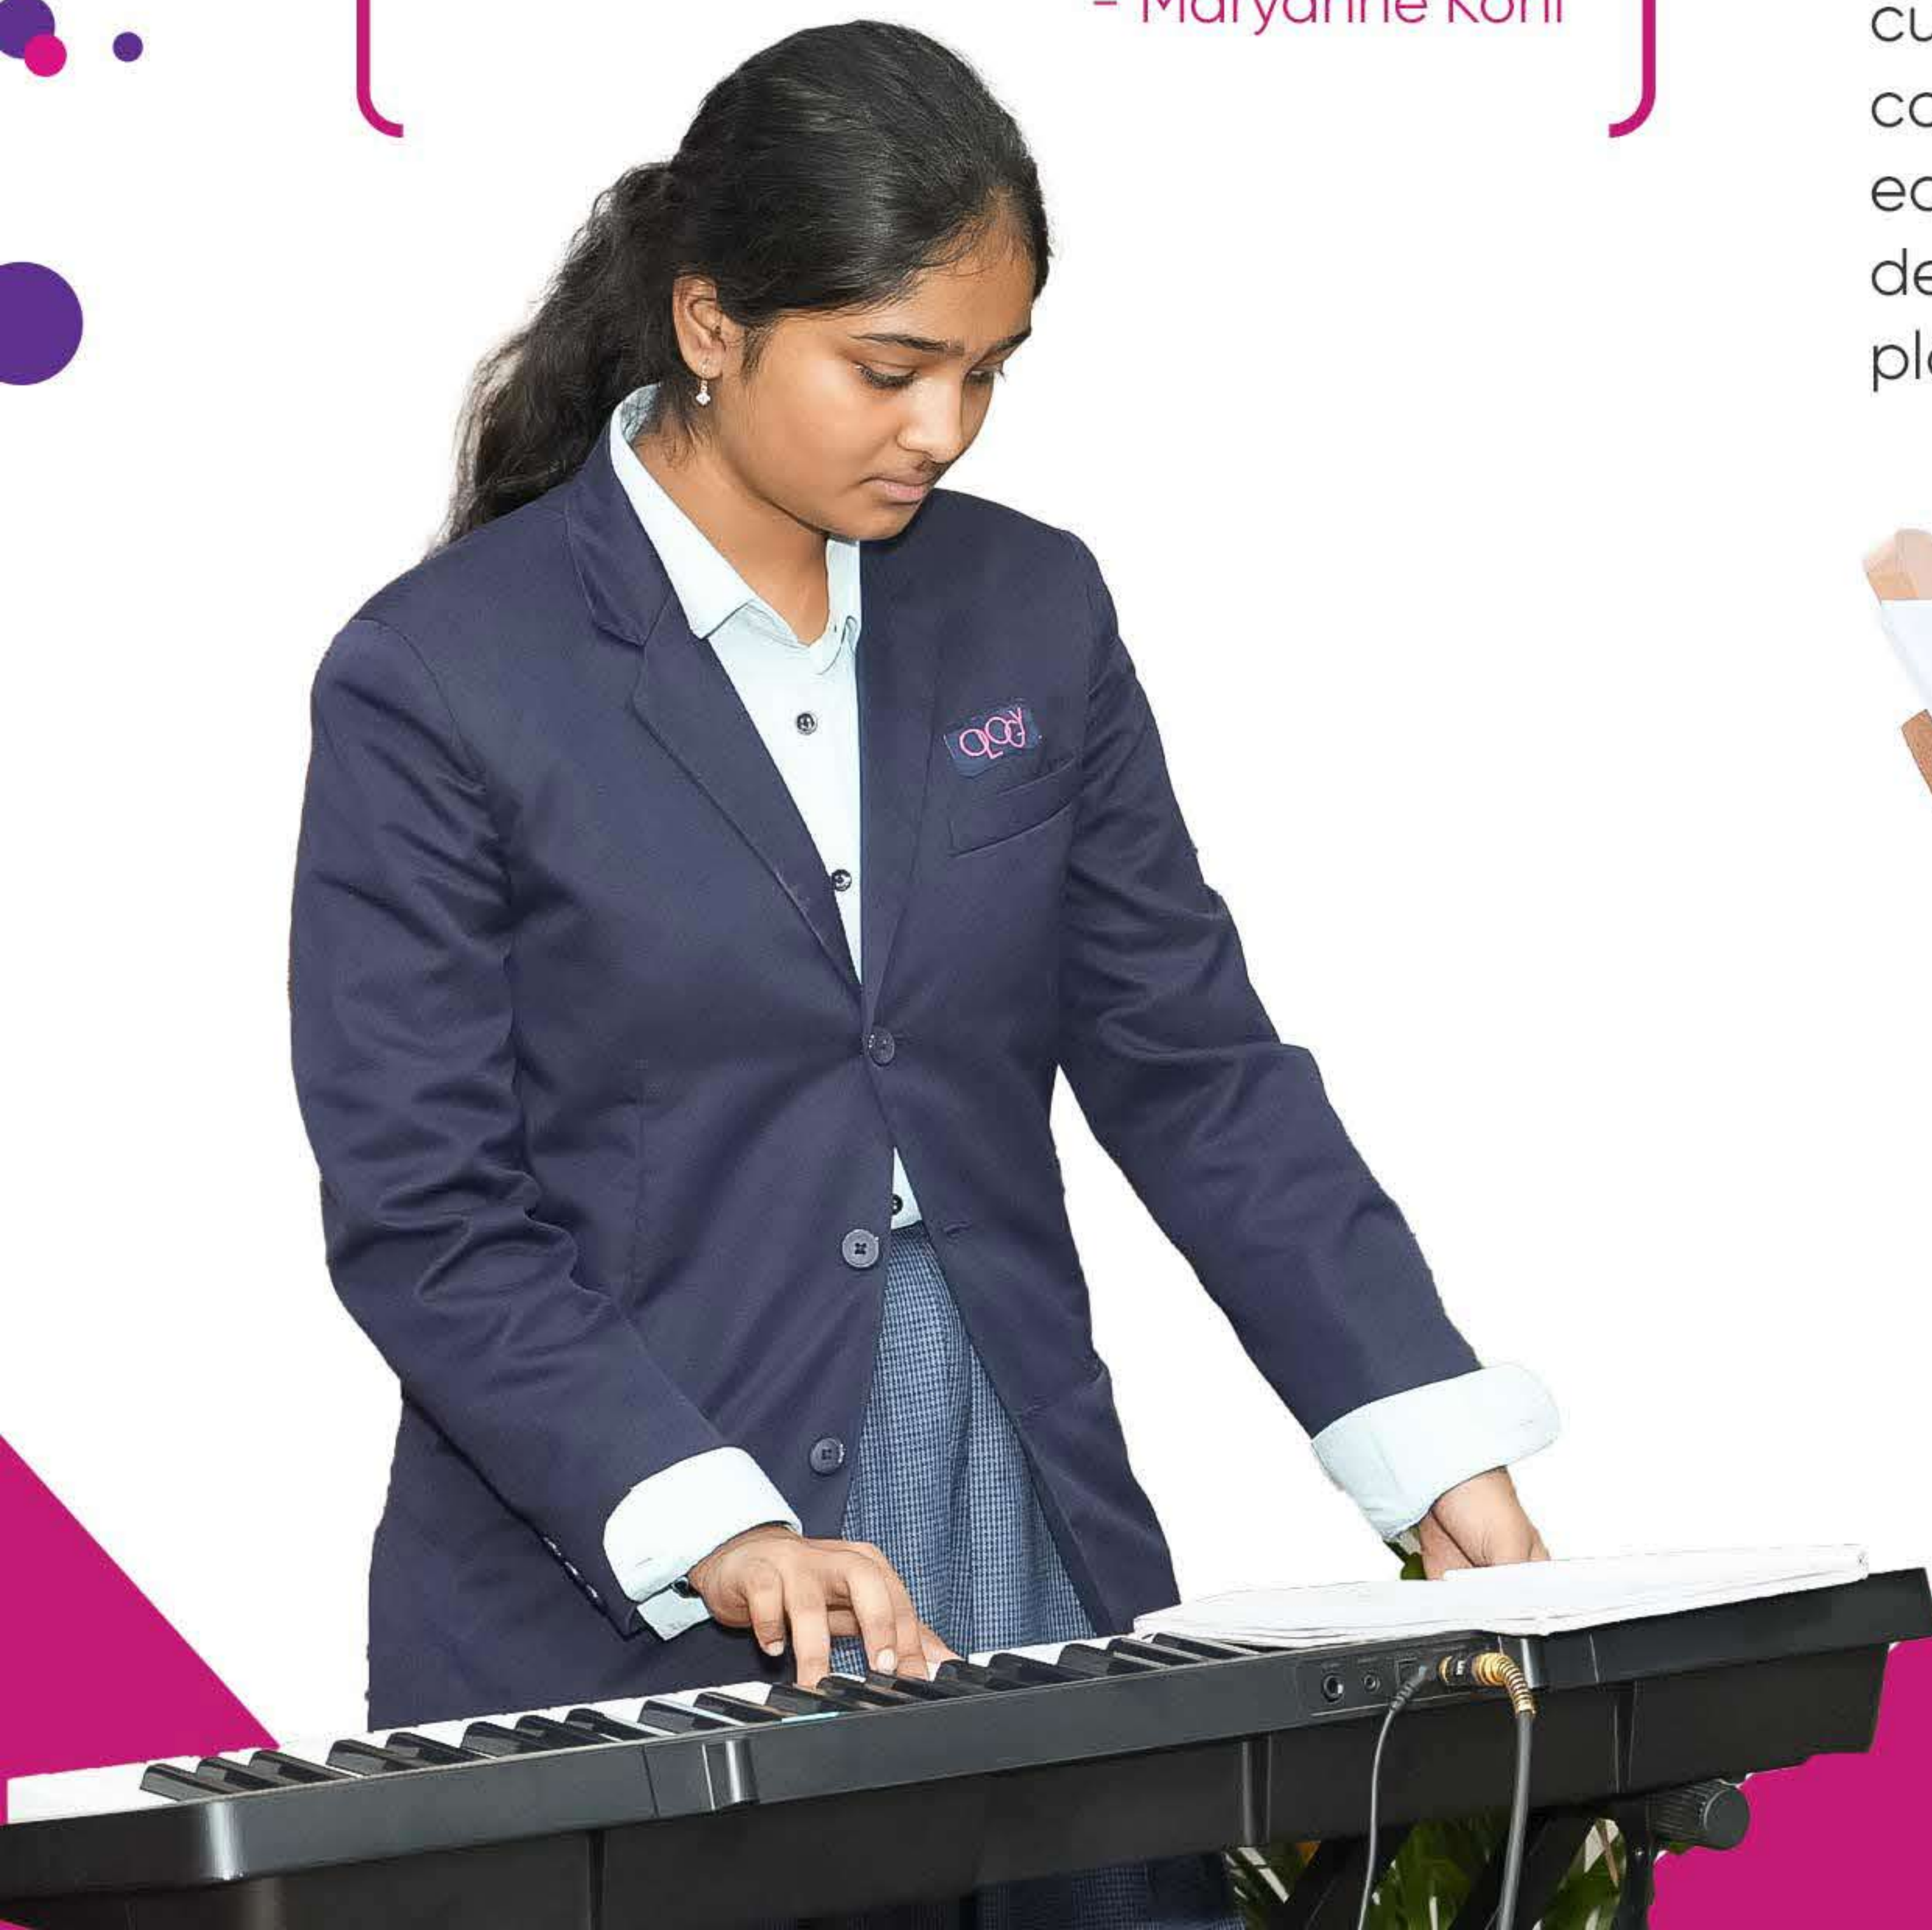

# Echos of Expression

Art is a place for children to learn to trust their ideas, themselves and to explore what is possible.

- Maryanne Kohl

**Art** has been an integral part of our pedagogy. Chitravathi is our art program curated by eminent artists and design experts from renowned institutes. Our Art Integrated Learning (AIL) program is a comprehensive and proven curriculum that is thoughtfully drafted to foster creativity and critical thinking skills.

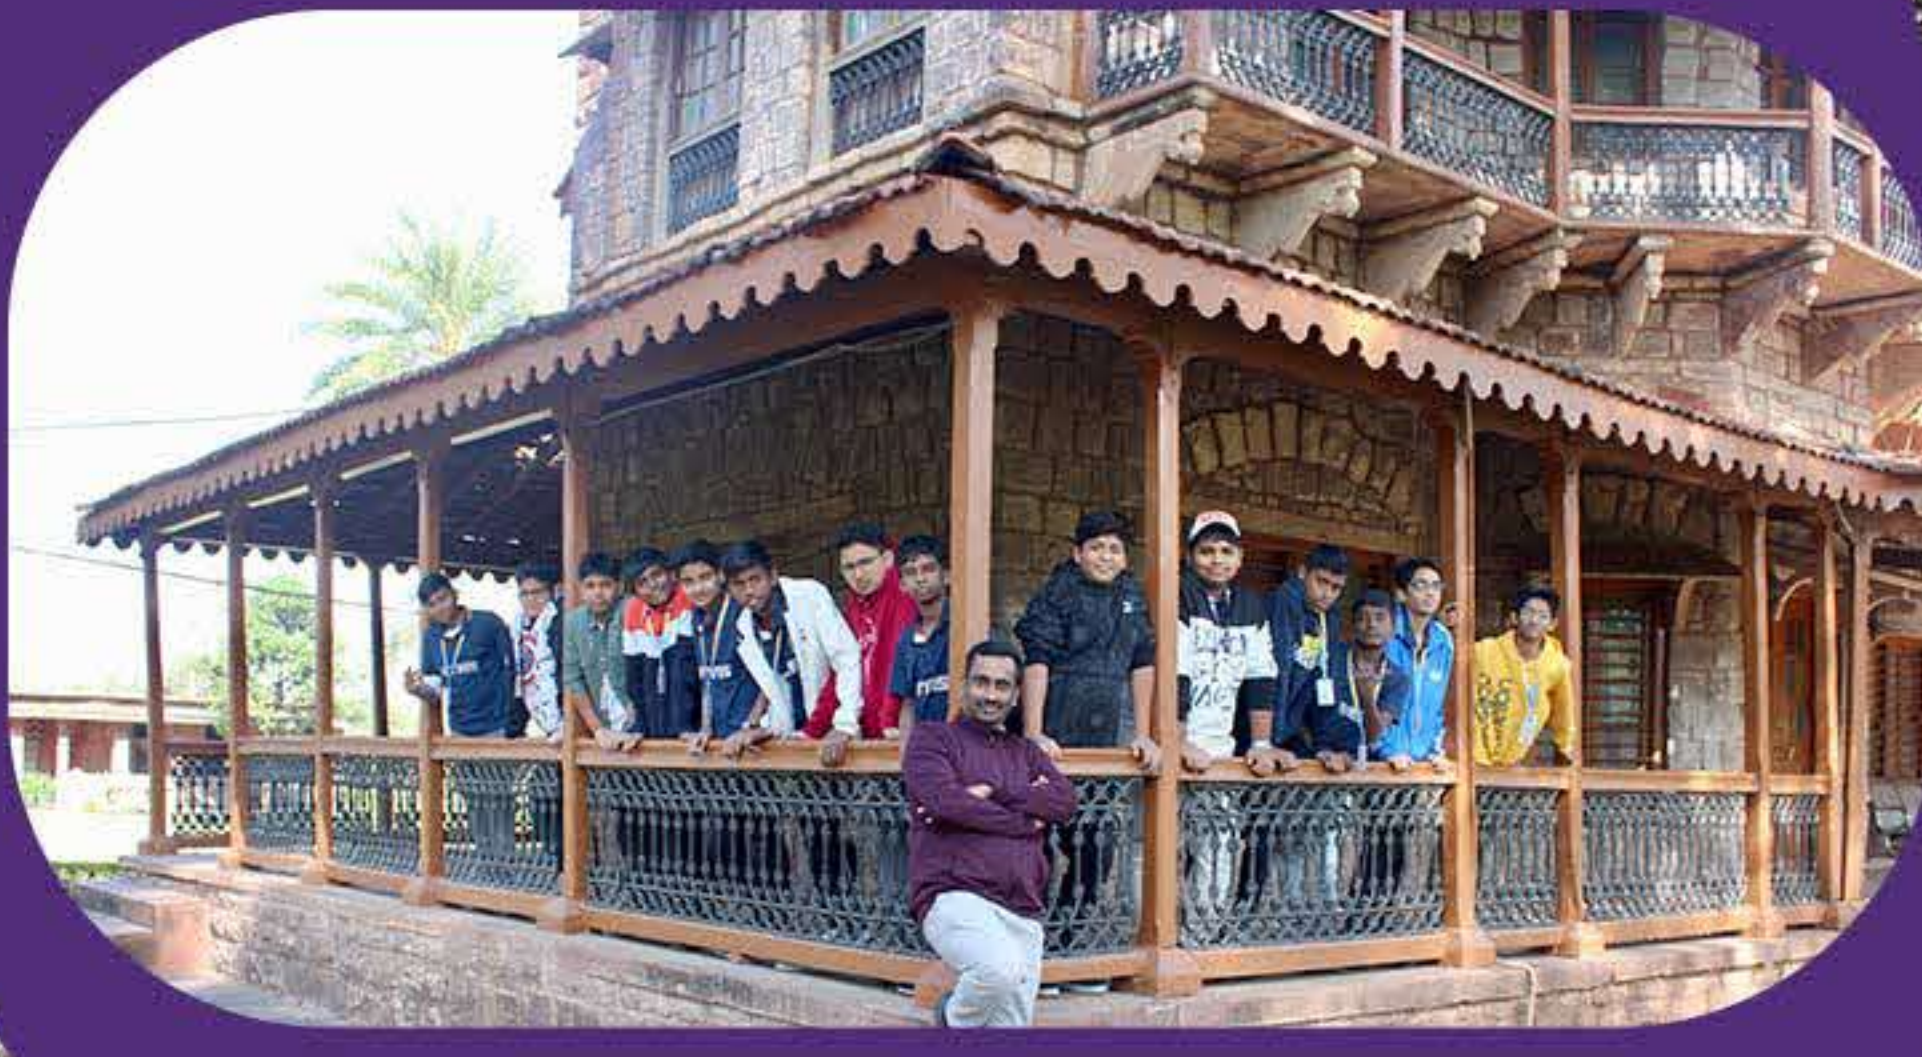

Our students are also exposed to performing arts in the form of music in specific as a regular part of their curriculum. The visual arts program commences with art exploration in the early stages and progresses to the development of a portfolio for college placement.

# Outbound Learning

Students engage in outbound learning through educational visits, hands-on workshops, and inspiring talk series, broadening their perspectives beyond Their classroom.

“

Extracurricular activities aren't just about having fun; they're about discovering your strengths, passions, and the boundless potential that lies within you."

- Michelle Obama

”

## ECA, CCA & Sports

Students discover boundless opportunities for growth, leadership and camaraderie through our diverse range of co-curricular activities and sports. Our programs are not just activities but gateways to a well-rounded and enriched student experience. For example, when students learn music they not only get a chance to showcase their talent, but also validate it by appearing for Trinity exams.

# FESTS

Our school festivals are more than just an event—it's a vibrant showcase of talent and the spirit of our dynamic student community. Students explore and enhance their passions and talents through engagement in school clubs, extracurricular activities (ECA), co-curricular activities (CCA), ultimately presenting their achievements during the school festivals

Literatur Fest

Music Fest

Art Fest  
(Pallikaranai)

Millet Fest

“ Education that ignores values can be a powerful weapon, but it's a weapon without a purpose.

– John F. Kennedy

# Inspired Learning through Values

Value education stands as a backbone in accomplishing our motto: Inspired Learning leads to self development.

Our commitment to value education goes beyond the classroom in shaping individuals who contribute to a positive and ethical society.

## Career Prep

Our holistic career prep program starts in primary school, offering insights into diverse career and skill development program. "Career Exploration Day" concludes a month-long exploration. In middle school, students make informed career choices with support from our dedicated team, ensuring confident preparation for top universities. Career fair is organised where students gain first-hand input from national and international universities. Our career counsellor, part of the career prep team, works closely with each student to guide them and facilitate their parents through the process.

# Inspiration hubs - Spaces that Spark Success

The environment must be rich in motives which lend interest to activity and invite the child to conduct his own experiences.

- Maria Montessori

The Makerspace facility nurtures collaborative and creative skills in students. expert designed educational landscapes where every corner is a canvas for achievement, a testament to our dedication to fostering a culture of brilliance.

- Well maintained classrooms
- Library
- Laboratory
- Interactive and collaborative spaces

We uphold stringent hygiene and safety standards across the school, ensuring a secure campus equipped with surveillance cameras, access control, and emergency response measures, hand sanitising stations, efficient waste management and health centre.

# The Inspirers - Our Faculties

“ I have always felt that the true textbook for the pupil is a teacher. ”

- M K Gandhi

Following careful consideration and a thorough process, we choose Inspirers who share our goal of Inspired Learning. Our Professional Development Program (PDP) consists of well-structured training sessions for teachers, that cover academics, skill-building, and innovative pedagogical interventions.

# Our student's bloom across various pursuits

**Akshaya**

National Karate Champion

Our Students are actively engaged in various extra curriculum and personal endeavors. We ensure a positive and flourishing environment for students to excel in their areas of interest or expertise.

# Testimonials

**JOHAN**  
SSNCE

Hello, I'm Johan, and I have done my higher secondary education at Ology Tech. Currently, I am pursuing my engineering degree at SSNCE College of Engineering. For me, the thing that sets Ology apart from the other schools is the emphasis they put in tracking individual performances. Through regular and thorough testing, my academic progress was meticulously assessed. Ology Tech provided me ample opportunities for extracurricular activities for exposure among which was the Grand Play hosted by Ology Tech at the Madras Music Academy. It was truly enthralling and has left an indelible impression on me.

Those days at Ology were instrumental in setting the foundation for my success.

Greetings, I'm Harini, and I had the privilege of studying at Ology Tech School from grades 8 to 10. The strong basics and foundations laid during those crucial years have been instrumental in helping me achieve my current goal. I am currently pursuing my MBBS at Kanyakumari Government Medical College. The supportive and helpful nature of the teachers and their unwavering belief in our potential and constant encouragement motivated me to strive for excellence.

**VASANTH**  
VASANTH- 12TH  
GRADE, NIOS

Hello, I'm Vasanth! I completed my 9th grade at Ology Tech School. Despite the predominantly online classes, Ology Tech provided me with extensive exposure, from participating in the Australian debate tournament to winning the design tournament alongside my friend Yash. I'm currently doing my 12th grade at NIOS (National Institute of Open Schooling), and the strong foundation I received at Ology has instilled confidence in me. The most favourite part at Ology was working for Ology News slides at OWS. I vividly recall the encouragement and support I received from Jamuna Mam, who played a significant role in motivating me.

Thanks to Ology Tech School!

We invite you to enter the gateway to inspiration, where every step unveils possibilities! We understand that choosing the right educational path is a profound decision and we assure you that your choice to consider us is a step in the right direction.
